

SWAPNIL SHINDE

AI & Data Science Engineer · Full Stack Development · Algorithmic Trading

+91 9579119759 | swapnilshinde538@gmail.com | [linkedin.com/in/swapnil-shinde](https://www.linkedin.com/in/swapnil-shinde) | github.com/swapnil-shinde | Pune, Maharashtra

PROFESSIONAL SUMMARY

Final-year B.Tech (AI & Data Science) student with proven experience in machine learning, Python, REST APIs, and generative AI. Delivered production-grade intelligent systems across autonomous robotics, NLP pipelines, agentic AI platforms, and live algorithmic trading. Skilled in full-stack development (HTML, CSS, JavaScript, React), cloud computing (Azure AZ-900 certified), prompt engineering, and RAG workflows. Strong communicator with freelance client delivery experience across fintech, retail, and healthcare domains.

TECHNICAL SKILLS

Programming:	Python, SQL, C++, JavaScript
Web:	HTML, CSS, React, REST APIs
AI / Data:	Machine Learning, Scikit-Learn, Pandas, NumPy, Prompt Engineering, RAG, Generative AI, Agentic AI, NLTK, LLM
Database:	MySQL, PostgreSQL
Cloud:	Azure Cloud Fundamentals (AZ-900), AWS Basics
Tools:	Git, GitHub, VS Code, Jupyter, Power BI, Tableau, Docker, Agile / Scrum

KEY PROJECTS

Blind Navigator — AI Assistive Navigation Device

Python · YOLO · OpenCV · ESP32 · Sensor Fusion

- Engineered real-time multi-object detection using YOLO + ultrasonic/IR sensor fusion, achieving 95% obstacle recognition accuracy.
- Built haptic & voice-guided feedback system enabling independent navigation for visually impaired users; reduced false-positive alerts by ~30%.

AlgoTrading Platform — NLP Strategy Builder & Live Execution

Python · LLM · Prompt Engineering · Zerodha Kite API · Backtrader

- Built agentic AI platform that converts plain-English trading strategies into executable Python code via LLM prompting, cutting strategy-to-backtest time from hours to under 2 minutes.
- Integrated live order execution via Zerodha Kite API with zero manual intervention; reduced simulated portfolio drawdown by ~18% over a 6-month backtest vs. manual baseline.

WhatsApp Chat Analyzer

Python · NLTK · Streamlit · Matplotlib · Pandas

- Built NLP dashboard analysing sentiment, activity trends, and word frequency across 10K+ messages; deployed for 3 clients for team communication analytics.
- Delivered interactive Streamlit UI with per-user and group-level insights, reducing manual reporting effort to zero.

PROFESSIONAL EXPERIENCE

Business Development Specialist — EduVersity, Bangalore

Aug 2025 – Nov 2025

- Generated and qualified 50+ leads/month via Meta Ads & Google Ads campaigns, improving conversion rate by ~20% within the first month.
- Managed digital channels (email, LinkedIn, Meta Business Suite), boosting online engagement by 35% across platforms.

Data Science Intern — Cognifyz Technologies, Remote

Jan 2025 – Mar 2025

- Processed 3 datasets (50K+ rows) with Pandas & NumPy; surfaced 4 revenue trends that directly shaped client pricing strategy.
- Built Random Forest & XGBoost classifiers achieving 87% accuracy; Matplotlib/Seaborn dashboards cut reporting time by 40%.

Freelance Data Scientist & Web Developer — Remote

2024 – 2025

- Delivered end-to-end ML solutions for 5+ clients across retail, finance, and healthcare; built 3 SEO-optimized responsive websites improving page-load speed by 30%.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

Nov 2022 – Jun 2026 | GPA: 7.6 / 10.0

AISSMS IOIT, Savitribai Phule Pune University (SPPU), Pune
